of Commons.

GEORGE R.I.

8 Pay 106	WHEREAS WE deem it expedient to amend the A.O. 86. Regulations governing the Pay of Officers of Our Army 1911. elected Members of the House of Commons after the 10th day of January, 1910 ;
---	--

OUR WILL AND PLEASURE IS that officers on the effective list of Our Army below the substantive rank of Lieutenant-Colonel elected Members of the House of Commons after the 10th day of January, 1910, shall be given the option of being placed on the seconded list or on the half-pay list from the date of their election. Officers unless placed on half-pay shall not be entitled to any emoluments from Army Funds until they revert to duty and are absorbed in a vacancy in their regiment, and they shall retain their position for promotion in their regiment. They shall not reckon the period on the seconded list towards retirement and a deduction of 5*l.* a-year for each year or part of a year during which they are seconded shall be made from their retired pay if it is not governed by length of total service. Officers placed on the half-pay list shall be entitled to half-pay at the rates laid down for the several ranks in the Warrant of His late Majesty, dated 1st December, 1909, for the Pay, Appointment, Promotion, and Non-Effective Pay of Our Army. On reversion to duty and restoration to full-pay, officers who have been placed on the half-pay list shall for precedence take the same numerical position in the rank which they occupied when placed on half-pay. Whether placed on the seconded list or on the half-pay list, such officers shall not be exempted from retirement on the ground of non-employment for 5 years, except that Our Army Council may, in exceptional cases, extend the limit of non-employment in the case of such officers on the seconded list up to 10 years.

Establishments.—1. The establishments of the warrant and non-commissioned ranks (including paid lance appointments), drummers, pipers, buglers, and artificers of the various arms of the service, as well as those of miscellaneous institutions, such as the School of Military Engineering, School of Gunnery, School of Musketry, &c., will be verified at least once a-year, in accordance with the following instructions :—

A.O. 103.
1911.

2. As soon as possible after the 1st May, 1911, and after any subsequent date that may from time to time be notified by the War Office, every paymaster in whose account the pay for that date of any warrant or non-commissioned officer (including soldiers holding paid lance appointments), drummers, pipers, buglers, and artificers of the regular forces appears, other than those the establishment of which he himself is to check, will prepare a nominal roll or rolls of such warrant and non-commissioned officers, &c., and transmit them with the least possible delay, as directed in paragraph 3. The exact rank or appointment should invariably be shown on the rolls, *e.g.*, saddler quartermaster-serjeant or wheeler staff-serjeant and not merely quartermaster-serjeant or staff-serjeant as the case may be.

The names of men on the strength but not on pay in the accounts on the specified date should not be included in the rolls.

3. The rolls containing the names of the warrant or non-commissioned officers, &c., of the household cavalry and foot guards serving at home will be transmitted to the Command Paymaster, London District; the

Army Orders.—April, 1911.

A.O. 103 establishment of the unit of foot guards in Egypt will be checked by the local paymaster. The rolls for the **1911** cavalry, whether serving at home or abroad, will be sent to the regimental paymaster who prepares the account of the unit to which the men belong. In the case of infantry of the line, when the units are serving at home, the rolls will be sent to the regimental paymaster at the record office station ; when serving abroad, to the regimental paymaster who prepares the account of the unit. Similarly those for the colonial corps and local companies abroad will be forwarded to the paymaster charged with the preparation of the pay list.

The regimental paymaster specified in this paragraph will check the actual strength of the units with the Army Order fixing the establishment, and in the event of there being any excess in numbers over the authorized establishment, will obtain an explanation of the same, if at home from the officer i/c records, if abroad from the O.C. the unit concerned, together with a statement showing what steps are being taken to absorb it.

The establishments of the miscellaneous institutions referred to in paragraph 1 will be checked locally.

The nominal rolls for all arms of the service other than cavalry and infantry will be sent to the War Office.

4. In the infantry, the establishment of the home battalion and the regular establishment of the reserve battalions, exclusive of lance appointments, will be taken together and treated as a whole, whilst the establishment of the battalions abroad will be checked independently. *See* paragraphs 292 and 293, King's Regulations.

5. The establishments of the Special Reserve and the Territorial Force, including the permanent staff of the latter force, will be checked by the paymaster to whom the pay list is rendered. In the event of there being any excess in numbers over the authorized establishment an explanation will be obtained, in the case of the Special Reserve from the officer i/c records, and in the case of the Territorial Force from the O.C. the unit.

6. When the check is completed a report should be made to the local auditor with an explanation of all excesses.

7. No action is to be taken under these instructions in connection with the establishments of any unit serving on the Indian establishment.

8. Army Order 97 of 1909 is *cancelled*.

2. *For* paragraphs 202, 240, and 310 *substitute*—

A.O. 200.	202. A N.C.O. serving on the permanent staff may,	8

	as defined in para. 310, are not likely to be interfered	94

with, be entrusted with the custody of articles of Government or Association property belonging to the unit, or be employed as caretaker of a rifle range or be charged with such other military duties as are compatible with his position as a N.C.O., as for instance, orderly-room work, superintending the cleaning of guns, harness and arms, keeping them in order when cleaned and looking after clothing and accoutrements in the regimental store.

He will not be required to clean arms, guns or harness, but, inasmuch as it is essential that soldiers should have a thorough knowledge of such duties in case they are called upon to take the field, this work will be carried out as far as possible, and as part of their training, by the men of the unit, and failing them under arrangements provided for by the County Association.

He will not in any circumstances be employed in connection with a canteen or any regimental institution, or on any duty which is not directly connected with the instruction or training of the unit.

When certificated, as required by the King's Regulations, he will thoroughly examine every arm in possession of the corps once every three months, keep a record of the condition of the arms, make detailed reports to the C.O., who will be held responsible that these duties are properly performed, and execute such minor repairs as are laid down in the code of instructions issued to him at Birmingham or Enfield Lock.

240. A N.C.O. serving on the permanent staff will not accept employment outside his military duties without the sanction of the brigade commander concerned, which will not be given if such employment interferes with the performance of any military duty, but he may be employed as a drill instructor of a recognized cadet unit.

310. Permanent staff consisting of an adjutant (except in the case of medical units), and serjeant-instructors will be attached to every unit, or group of units, of the Territorial Force.

Army Orders.—July, 1911.

Their duties in so far as the training of the unit is concerned are mainly those of instructing, under the orders of the C.O., the officers and N.C.Os. of the unit, and of supervising the instruction given by the officers and N.C.Os. to the men. A.O. 200
1911
continued.

In certain cases it may also be necessary for the permanent staff to undertake the elementary training of recruits before they join their squadron, battery or company, but the system to be aimed at as far as possible is that the officers should be the instructors of their own N.C.Os. and that both officers and N.C.Os. (and not the permanent staff) should instruct their own men.

By this means only can officers and N.C.Os. acquire the habit of command and powers of instruction and become, as they should be, the leaders of their men.

A.O. 200.
1911.

The County Association will then decide in consultation with the military authorities as to what steps are necessary in each case, and men whose absence has not been satisfactorily accounted for or who have not been dealt with under paragraph 266 or 267, will be struck off the strength on 31st December annually.

SECTION II.

Magazine Conditions.

A.C.D.	43. The following precautions are to be observed in	A.O. 203.
Artillery	magazines and laboratories when containing explosives.	1911.
6599	44. Lighting fires or smoking is strictly prohibited in or near any of these buildings; any soldier or sailor employed on the premises infringing this rule, or attempting to enter with tobacco pipes, tobacco in any form, matches, or with any combustible, or exposed iron or steel articles, in his possession, or having the least appearance of intoxication, will be placed in custody.	
	45. In the case of Ordnance Dépôts care is to be taken that men from other departments are duly warned as to these regulations on each occasion of their entering the premises.	
	46. No one, except when on duty, will be permitted to pass the entrance barriers.	
	Before entering, all persons will—	
	(a) Search all their pockets for prohibited articles and deposit them outside the magazine entrance.	

Army Orders.—July, 1911.**A.O. 203****1911***continued.*

- (b) Turn down the ends of their trousers or overalls, and brush off any mud or grit which may be upon them.
- (c) Rub their boots on the mat, and take them off.
- (d) Step over the barrier into the special magazine shoes provided. But officers will retain their boots, and will step over the barrier into special overboots.

The diagram and instructions (Army Form G 949) show the place where the change of boots should be effected. Copies of this form will be attached to boards and hung up in convenient positions for the information of those concerned. The instructions on the form regarding magazine clothing apply to magazines and laboratories in A.O.D. and N.O.D. charge, and R.A. laboratories when laboratory operations are being carried out.

47. No person whatever is to be permitted to walk upon any clean floors or platforms (that is, such as are within the barrier and under magazine conditions), unless wearing the special shoes above referred to; nor, while wearing these shoes, is he to walk anywhere except upon the clean floors and platforms.

48. The floors and platforms will be kept scrupulously clean, and the latter frequently watered in dry weather. The interior, benches, shelves, and fittings will, so far as is reasonably practicable, also be kept free from grit and otherwise clean.

49. The door mats are for use solely outside the barriers of the magazines; they should therefore be placed at the entrance, in the most convenient places for use, and sheltered from the weather. They should frequently be taken up and shaken at a distance from the barriers, to prevent any accumulation of mud and grit.

50. Oiled cotton, rags, and waste, and any articles whatever liable to spontaneous ignition, will not be taken into these buildings, except for the purpose of immediate use therein and upon the cessation of such use will be forthwith removed.

51. Great care is to be taken that all doors and shutters are kept closed except when it is necessary to open them for ventilation or work and a responsible person will then always be left in charge of the building. They are to be closed during laboratory operations, except in the actual buildings where work is going on.

52. Every magazine or other building containing explosives will be closed during thunderstorms.

53. No package containing explosives in Group I. will ever be opened in any magazine in which such explosives are kept. Should no examining room or lobby be available for use in opening packages of filled cartridges, such packages may be opened in a building or tent, magazine conditions being adhered to as closely as possible. **A.O. 203**
1911
continued.

54. On arrival and before admission into the magazine, every package will be examined externally to ascertain that it is properly closed and to discover if its exterior presents any objectionable substances (such as iron or grit). Packages containing explosives returned to store, unless in complete unopened boxes, will, in addition, be examined internally to guard against the introduction of improper substances into magazines or stores. A defective package must not be admitted into the magazine; if necessary, the contents must be shifted. Empty packages will not be allowed in a magazine in which explosives are stored.

55. Whenever gunpowder, picric acid, picric powder or T.N.T., is to be moved, or cartridges or shells filled or examined, the floor where the work is to be carried out is to be covered with hides or wadmiltits. These should be frequently dusted. Wadmiltits must always be dried if they get damp, as in that condition they are liable to spontaneous combustion.

56. Barrels of gunpowder, picric acid, picric powder, or T.N.T., are not to be rolled but will always be carried by hand or on trucks or barrows.

57. It should be remembered that the object of an explosive is to explode. A particle of gunpowder is likely to explode when pinched between two hard surfaces, or subjected to a blow, especially a glancing blow such as is given by a man's boot when he slips on a floor. The explosion of this small quantity may be communicated to the other explosives in the building.

57A. In addition to the precautions mentioned in the foregoing paragraphs the following precautions will be observed in magazines and laboratories in A.O.D. or N.O.D. charge when containing explosives, and in R.A. laboratories when laboratory operations are being carried out.

57B. All persons employed will, before entering, change their outer clothes, viz., overcoat, coat, waistcoat, trousers, and boots, for the special clothing consisting of jacket (or flannel shirt, when dealing with lyddite shells or exploders), trousers, cap or hat, and shoes (also woollen

continued.

- (a.) Before passing the barrier, boots to be wiped on mat and taken off. Uniform or private clothing to be taken off and hung up.
- (b.) Pass over the barrier and put on magazine clothing and shoes.

57c. Uniform, private clothing, or boots, must never be taken inside nor magazine clothes or shoes outside the barrier, but the non-commissioned officers will be permitted to wear their forage caps inside the barrier. It will not be sufficient for men to put the magazine clothing over their own garments.

57D. A civilian employed by the War Department or Admiralty who commits any of the offences specified in para. 44 will be turned out and immediately dismissed, unless it should be a first offence and the officer in charge, after very careful investigation, is of opinion that extenuating circumstances exist and there was no wilful intention to infringe the regulations. In such a case he will cause the man to be suspended in place of being dismissed, and will bring his case in writing to the notice of the General Officer Commanding, Admiral Superintendent, or Naval Officer in charge, as the case may be, who, if he approves, will submit it to the War Office or Admiralty for decision as to what, if any, lesser punishment than dismissal should be inflicted.

57E. The whole of the men employed in magazines, laboratories, and other buildings under magazine conditions, or in explosives stores, will be subjected to a thorough search at the entrance gate, both at morning and afternoon calls. This search will be made by the police, leading hands, or warder detailed for the purpose, in presence of the storeholder, storehouseman, or foreman in charge of civilians, or non-commissioned officer in charge of military party.

57F. The private clothing or uniform of the men—taken off and left in the shifting lobby—will further be carefully examined after each muster by the storeholder, foreman, or non-commissioned officer in charge. In cases where the Metropolitan Police are employed to guard the establishment, this examination will be made in presence of the police by whom examinations may also be made in the presence of the storeholder or other responsible person.

57G. No cultivation is to be permitted inside magazine yards, nor are any animals to have access to them.

Army Orders.—July, 1911.

57H. An extract of the foregoing instructions printed on A.F. G 940 is to be hung up at the entrance to all magazines, laboratories, ammunition stores and general stores. **A.O. 203**

The statement attached to Army Form H 1164, in accordance with the last sentence of paragraph 43, Appendix III., Clothing Regulations, Part I., should show the remain of unmade garments only, and the balance of badges shown in Section VII. of the ledger to 30th September, 1911, should not be carried to the ledger opened on 1st October, 1911.

(c.) Temporary instructors will be allowed in the proportion of 1 instructor to every 25 recruits, for the instruction of whom no permanent staff instructor is available.

(v.) Temporary instructors so employed will receive pay and allowances, as laid down in paras. 568 and 570.

43 **Courses of Instruction, 1912–13.—Regular Forces, Special Reserve and Territorial Force.**—With a view to giving longer notice of the courses to be held each year at the various schools of instruction, it has been decided that, in future, the year's courses shall coincide with the financial year, *i.e.*, from 1st April to 31st March, and that the programme of courses shall be published annually in Army Orders for January. Particulars will continue to be submitted to the War Office by commandants not later than 1st October, in accordance with paragraph 745, King's Regulations. On the publication of the list of courses in January, the commandants of schools, or other authorities who arrange courses, will at once communicate direct with commands, with a view to the allocation of vacancies for each course at the earliest possible date.

In order to provide for the period 1st January to 31st March, 1913, and for some additional courses, a programme of courses supplementary to that issued with Army Order 348 of 1911 has been approved, and copies will shortly be issued to all concerned.

Army Orders.—June, 1912.

A.O. 180 out or take out troops for the purpose of aiding in
1912 the suppression of riot, the maintenance of the public
continued. peace, or the execution of the law, or of assisting the
 civil power in case of an expected riot, without the
 requisition in writing, or by telegram of the civil
 authority.

The civil authority by whom the requisition should
 be made is—

In the Metropolitan Police District, the com-
 missioner or an assistant commissioner of police.

In English counties, a county magistrate. The
 magistrate's requisition will in ordinary circum-
 stances be forwarded by the chief constable,
 but in an emergency the requisition may be
 accepted if made by the magistrate direct or by
 the chief constable.

In English cities and boroughs, the mayor, or, in
 case of emergency, any magistrate having juris-
 diction in the city or borough.

In Scotland, the sheriff having jurisdiction in the
 place where the services of the troops are
 required.

In Ireland, the chief or assistant commissioner of
 the Dublin Metropolitan Police, or a sheriff or
 resident magistrate, or officer of the Royal Irish
 Constabulary, having jurisdiction in the place
 where the services of the troops are required.
 Where a resident magistrate makes a requisition,
 it will be sent to the O.C. the troops through
 the office of the city, town, county, or district
 inspector of police.

In cases when a disturbance of the peace takes place
 in or near a station where troops are quartered, the
 military authority will, subject to paying due attention
 to the general obligations imposed by the common
 law, as explained in the Manual of Military Law,
 Chapter XIII., Appendix I., exercise his discretion as
 to the necessity of complying with the requisition of
 the civil authorities.

When troops are requisitioned from a distance the
 military authority will make all arrangements for the
 despatch of troops, but will not send them until he has
 received authority from the War Office. On arrival at
 the place to which troops were requisitioned, the O.C.
 the troops will, subject to the obligations of the common
 law as above stated, exercise his discretion as to the
 necessity for intervention by the troops. When troops

are despatched, the civil officer who requisitioned them **A.O. 180**
will be informed of their numbers, and of the time at **1912**
which they may be expected to reach their destination. *continued.*

The responsibility for deciding as to the strength and composition of the force detailed rests with the military authorities. If the civil officer mentions them, it will only be as a guide to aid in estimating the force required.

INSTRUCTIONS, REGULATIONS, &c.

***The King's Message to the Troops taking part in the Manœuvres.**—The King has desired the Director of Manœuvres to inform the troops of the great pleasure it has given him to pass the last three days among his troops during the final phase of their annual training and to witness the zeal, keenness and energy displayed by both officers and men under service conditions in marching and fighting. A.O. 281.
1912.

His Majesty, from his inspections of the Army during the past two and a half years, feels satisfied that the present system of training is being conducted on sound lines and is particularly pleased to observe that a serious and earnest spirit to reach a high standard of war efficiency prevails.

The first experiments in aerial reconnaissance which have caused His Majesty and the country to mourn the loss of four gallant officers, the rapid concentration of troops by rail without the dislocation of ordinary traffic, and the employment of mechanical transport are special features of the manœuvres of 1912.

The King desires to express his entire satisfaction with everything he has seen of the work in the field, both on the part of the troops and of the staff.

PRINCIPLES TO BE ADOPTED IN THE ALLOCATION OF WORK IN REGARD TO TRAINING MATTERS BETWEEN THE GENERAL STAFF AND THE GENERAL OFFICER i/c ADMINISTRATION.

1. The guiding principle to be followed in determining the allocation of work between the general staff and the general officer i/c administration with regard to training matters should be that the general staff, under the instructions of the G.O.C.-in-C., should determine what training services are to be carried out, and that the general officer i/c administration should arrange for the execution of all the resultant administrative details.

O. 323.

1912.

2. The general staff should not be required to work out any administrative details.

3. In selecting ground for training in cases where the Manœuvres Act is not enforced, the general staff should determine the ground required for training after going into the matter in consultation with the other branches of the staff assisted by the technical advisers concerned. After the ground has been thus selected, the general officer i/c administration should arrange for the execution of all administrative details.

4. Letters emanating from the general staff at the War Office will be marked by the command central registry in the first instance to the general staff, who will pass them to the branch concerned for any administrative action that may be necessary.

5. Similarly, all administrative action entailed by instructions emanating from the general staff, at the War Office or of the command, should be carried out by the general officer i/c administration.

6. The general arrangements for carrying out courses of instruction and examinations, the determination of the numbers to attend and of the general principles on which they are to be detailed are matters for the general staff. But the actual detailing of the officers and the men to attend schools, courses and examinations, on the lines thus laid down by the general staff, will be carried out by the adjutant-general's staff.

7. Officers required as umpires, or for special duty in connection with training, will be selected by the

Army Orders.—November, 1912.

A.O. 323 general staff and will be detailed by the adjutant-general's staff. In case of an officer not being available for the duty the adjutant-general's staff will acquaint the general staff, so that another officer may be selected and detailed for the duty.

1912
continued.

8. The normal allocation of work in connection with the training grants of both the regular and territorial forces will be as follows :—

- (a) The commanders immediately subordinate to command headquarters should each submit, by 1st November, a programme of the training they desire to carry out during the ensuing financial year, with an estimate of the cost of each item.
- (b) The general staff at command headquarters should amend these programmes in accordance with the instructions of the G.O.C.-in-C., and should add the items of training initiated by command headquarters.
- (c) The general staff should then send the complete programme on A.F. M 1442 to the general officer i/c administration to have the estimates of cost worked out and entered.
- (d) A.F. M 1442, when thus completed, should be submitted by the general staff to the G.O.C.-in-C. for final approval and submission to the War Office.
- (e) On receipt of the War Office letter announcing the amount of the annual allotment to the command, the general staff, under the instructions of the G.O.C.-in-C., should review the training programme and should notify to "allottees" (i.e., commanders immediately subordinate to command headquarters) the amount of their allotment of the training grant for the first half of the ensuing financial year.
- (f) "Allottees" should be responsible for the administration and judicious expenditure, under the regulations, of their allotments on the services approved by the G.O.C.-in-C.
- (g) Any administrative work in connection with the portion of the training grant retained as the command headquarters allotment should be carried out by the general officer i/c administration, but the determination of the training services on which it is to be expended will rest with the general staff, acting under the instructions of the G.O.C.-in-C.

- (h) On the 30th September, any balance unexpended from the allotment made to "allottees" under (e) above will lapse and "allottees" will report at once to the general officer i/c administration the amount of such balance. The whole of the training grant then reported as available by the general officer i/c administration will be re-allotted by the general staff for expenditure during the second half of the financial year. A.O. 323
1912
continued.

9. Modifications of the above arrangements, when necessary to suit local conditions, will be made by the G.O.C.-in-C.

Pay
176

Officers will be permitted to exercise the option of accepting the conditions of the Royal Warrant of 31st August, 1911, or of remaining under the regulations originally contained in the Pay Warrant of 1st December, 1909, at any time up to 30th September, 1913, and officers who do not make their election before that date will be held to come under the provisions of the Royal Warrant of 31st August, 1911.

Officers electing to come under the old regulations will receive an official acknowledgment of their application, and a list of all such officers will in due course be published in Army Orders. The inclusion or non-inclusion of an officer's name in this list will be regarded as the authority for determining in the future the regulations under which the officer will come for retirement and retired pay, and the choice, once made, will be final.

An officer who elects to remain under the old regulations will be subject to Articles 509 and 513 of the Pay Warrant of 1st December, 1909. He will be entitled to the following rates of retired pay :—

120*l.* a-year after 15 years' service (or 12 years in the West India Regiment).

INSTRUCTIONS, REGULATIONS, &c.

<u>A.O. 79.</u> <u>1913.</u>	King Edward's Horse (The King's Oversea Dominions Regiment). —His Majesty the King has been graciously pleased to approve of the conversion of King Edward's Horse (The King's Oversea Dominions Regiment), now a unit of the Territorial Force, into a unit of the Special Reserve, under the title of "King Edward's Horse (The King's Oversea Dominions Regiment)."	9 <u>King</u> <u>Edward's</u> <u>Horse</u> <u>Yeomanry</u> 22
---------------------------------	---	--

The conversion, with His Majesty's approval, of King Edward's Horse (The King's Oversea Dominions Regiment), from a unit of the Territorial Force to a unit of the Special Reserve, is intended to mark the connection of the regiment with the Oversea Dominions, and the fact that the regiment is solely recruited from citizens of, or those intimately connected with, the King's Oversea Dominions.

The appended orders regarding the conversion are published for the information of all concerned :—

INTRODUCTORY.

1. Since the Territorial and Reserve Forces Act, 1907, does not provide for the transfer of a Territorial Force unit to the Special Reserve, it becomes necessary, in order to effect the conversion of King Edward's Horse Yeomanry to a unit of the Special Reserve, to disband the regiment, and to reconstitute it as a Special Reserve unit, under the title of "King Edward's Horse (the King's Oversea Dominions Regiment)."

2. Those officers and non-commissioned officers and men who elect to continue in the regiment will be required to serve in the Special Reserve of Officers and in the Special Reserve, respectively.

3. This procedure will not cause any break in the services of those officers and non-commissioned officers and men who elect to serve in the Special Reserve of Officers and in the Special Reserve, respectively.

4. On mobilization being ordered, all ranks will be liable for service, both at home and abroad. In undertaking to serve in the Special Reserve of Officers and in the Special Reserve, officers, non-commissioned officers and men serving in the new unit will be liable for service with their own corps, or such part of that corps as may be required.

Army Orders.—March, 1913.

ORGANIZATION.

A.O. 79

5. The organization of the regiment will remain as at present, viz. :—

COMMAND AND TRAINING.

7. The officer commanding the regiment will be responsible for the command and training of his unit, under the orders of the General Officer Commanding, 4th Cavalry Brigade, and the General Officer Commanding-in-Chief, Eastern Command.

8. Recruits' training and annual training will be carried out as laid down for yeomanry in the Regulations for the Territorial Force, but in the case of trained soldiers a minimum of 15 days' annual training in camp must be performed.

9. Additional training will be given as far as the subscribed funds in the hands of the Committee of Administration admit, but no expenditure will be admissible from army funds beyond that authorized for a regiment of territorial yeomanry.

10. Training will be carried out in accordance with the Yeomanry and Mounted Rifle Training Manual, 1912.

ADMINISTRATION.

General provisions.

11. The regiment will cease to be subject to the control of the Territorial Force Association for the County of London.

12. Correspondence will be conducted in accordance with the general rules of Section XIV. of the King's Regulations.

13. Such matters as have hitherto been dealt with by the Territorial Force Association for the County of London and the General Officer Commanding, London District, respectively, will in future be dealt with by the present Committee of Administration, and the General Officer Commanding-in-Chief, Eastern Command, respectively.

14. The regimental headquarters will remain in the present premises at the Duke of York's Headquarters,

continued.

15. The regiment will be affiliated to the Cavalry Record Office at Canterbury.

Pay and allowances.

16. All grants to the regiment, whether in money or in kind, and the personal emoluments of the officers, non-commissioned officers and men will be those of a regiment of territorial yeomanry, and will be issued at the rates and subject to the conditions laid down from time to time in the Territorial Force Regulations. The special outfit allowance, gratuities and bounties of the Special Reserve will not be admissible.

17. All grants, other than personal emoluments, will be payable to the Committee of Administration, which, in regard to the expenditure and administration of such funds, will occupy the same position as a County Association, and will be guided by the instructions in Part II., Section 4, Territorial Force Regulations. The Committee's accounts will be rendered under Section 5.

18. Any extra expense incurred for training in excess of the prescribed periods will be borne by the private funds of the regiment. The prescribed periods of training, for which pay and allowances are admissible, are as laid down for a regiment of yeomanry in the Territorial Force Regulations.

Officers—First Appointment.

19. All officers serving on the date of conversion will be eligible for commissions in the Special Reserve of Officers on condition of accepting the liability—

(a.) To serve abroad in time of war.

(b.) To perform the annual training prescribed for this regiment.

Soldiers—Enlistment and Terms of Service.

20. As a soldier cannot be held to serve in the Special Reserve on a Territorial Force attestation, all non-commissioned officers and men now serving will be discharged forthwith from the Territorial Force. Those willing to continue serving under the new conditions will then be re-attested for the Special Reserve, either for a period corresponding with the remainder of their current engagement in the Territorial Force or for a fresh period of four years, as they desire.

21. In the case of future enlistments which will be solely confined to citizens of, or those intimately

22. In future, enlistments will be for the term of 4 years and re-engagements up to 35 years of age may be permitted at the discretion of the officer commanding the regiment. Payments for purchase of discharge will be regulated by the Committee of Administration in accordance with the general principles laid down in paragraph 802, Territorial Force Regulations.

23. Recruiting will be carried out by the officer commanding the regiment, with the assistance of the adjutant and the regular establishment under the authority of the Committee of Administration.

Status.

24. All men joining the Special Reserve become army reservists and therefore subject to the same conditions of service and liabilities as regular reservists.

25. When called out for training, or on mobilization, they become subject to military law.

The conditions of service are as follows :—

PART I.

Officers.

1. *Commissions.*—(a.) The Postmaster-General will nominate candidates for vacancies for the consideration of the Army Council.

*(c.) A candidate is eligible for a commission up to the age of 40.

(d.) Officers will be appointed on probation, and will be confirmed in their appointments on being certified as efficient.

2. *Promotions.*—(a.) In making promotions to fill vacancies, postal qualifications and power of organization and control will be primarily considered.

(b.) The Postmaster-General will, if he sees fit, nominate an official of the General Post Office without previous service in the Army Postal Service to fill any vacancy that may occur, irrespective of the rank of the appointment. In cases of appointments, where supersession of other officers is involved, he will inform the Army Council as to the reasons for his recommendation.

3. (a.) *Probationary training.*—The Director of Postal Services will decide what period of probationary training is required in the case of each officer.

(b.) *Annual training.*—The annual training of field officers consists in the organization and administration of the postal services required for the annual training and manœuvres of the Army generally. This work will normally be performed at headquarters, but will involve occasional attendance at annual training and manœuvres for the purpose of supervision. Officers below field rank will normally be called out for 15 days' training during the annual training or manœuvres of regular or territorial divisions, or of other formations to which they will be attached. When so called out, they will be trained in the duties which will devolve upon them in war, so far as the postal requirements of training and manœuvres admit. If not required for postal duties they may be called upon to perform 15 days' annual training in camp with a unit of the Territorial Force.

When officers are not called out to perform their annual training, the Director of Postal Services will report to the general officer commanding the division or brigade concerned as to their efficiency in Army postal duties.

(c.) In addition to the above, officers of the rank of captain and under will, during their first year of

(b.) Officers will be eligible for the gratuity under the conditions laid down in paragraph 418, Special Reserve Regulations, up to the age of 40 ; but the issue of the gratuity will be subject to their having qualified in an examination in Army Postal duties on similar lines to that laid down for promotion to captain (subject g) for officers of the Army Service Corps.

5. *Retirement.*—Officers will, if called upon to do so, be required to resign their commissions on leaving the service of the General Post Office.

6. *Uniform.*—The uniform will be that of the Royal Engineers.

PART II.

Non-commissioned officers and men.

2. *Training.*—(a.) *Recruit training.*—During their first year of service recruit non-commissioned officers and men will be required to perform the number of drills and the musketry course laid down for recruits of Royal Engineers (other than field companies) of the Territorial Force. They will also, unless specially required for army postal duties, perform annual training in camp of 15 days with a unit of the Territorial Force.

(b.) *Subsequent training.*—Non-commissioned officers and men will normally be required to perform annual training in connection with postal duties with formations of the Regular Forces or the Territorial Force during their annual training or manœuvres; or, if not required for postal duties, they may be called upon to perform 15 days' annual training in camp with a unit of the Territorial Force.

They will also be required to perform the annual musketry course laid down for Royal Engineers (other than field companies) of the Territorial Force, and any such drills or special training, not exceeding the number of drills laid down for Royal Engineers (other than field companies) of the Territorial Force as the Director of Postal Services may decide.

Gen. No. 855 **System of recording and notifying casualties in A.O. 102.**
war.—1. With a view to reducing clerical work on **1913.**
mobilization and in the field, a new system of recording
and notifying casualties in war has been approved and
will take effect from 1st June, 1913. An outline of
the new system is given below.

2. In connection with this change, a new Army Form
(Army Form B 103) for use on active service has been
approved (a specimen of this form is shown in the
Appendix to this Order). One of these forms will be
held for every regular soldier serving at home and for
every regular and special reservist. Each officer com-
manding a unit at home and each officer in charge of
records will forward demands for Army Form B 103 at
the rate of one for every regular soldier serving at home
and for every regular and special reservist for whom
he holds a duplicate attestation, plus 20 per cent. spare.
Officers i/c records will at once complete these forms for
reservists under their command and will deal with
them as laid down in paragraphs 126 and 126A, Regula-
tions for Mobilization, as amended by this Order.

3. When a unit proceeds abroad on active service, the
following documents will be transmitted by the officer
commanding to the Adjutant-General's office at the
Base—General Headquarters, 3rd Echelon :—

- (a.) A nominal roll of all officers, warrant officers,
non-commissioned officers and men proceed-
ing abroad with the unit.
- (b.) An Army Form B 103 for each warrant officer,
non-commissioned officer and man shown on
that roll. These should be enclosed in the
binders issued for that purpose.

Should the details to be left at the base proceed
abroad independently of the units to which they belong,
the names of officers, warrant officers, non-commissioned
officers and men in these details will not be included in
the nominal roll of the unit, but a separate nominal roll
of the details, together with an Army Form B 103 for
each soldier included in that roll, will be transmitted to
the Adjutant-General's office at the base by the officer
who commands the details.

Army Orders.—March, 1913.

A.O. 102

1913

continued.

When a draft proceeds to the theatre of war, the officer commanding the unit from which the draft is sent is responsible that a nominal roll of the draft with an Army Form B 103 for each warrant officer, non-commissioned officer and man in the draft is transmitted to the Adjutant-General's office at the base.

In all cases a copy of the nominal roll will be forwarded to the officer in charge of records concerned.

4. The following documents of each warrant officer, non-commissioned officer and man who proceeds abroad on active service will be sent to the officer in charge of records concerned :—

Duplicate attestation.

Regimental conduct sheet.

Company conduct sheet.

Medical history sheet.

Other documents normally kept with the duplicate attestation will be disposed of as laid down in existing regulations.

5. Officers i/c records will demand supplies of Army Form B 122 (Field Conduct Sheet) at the rate of one for each duplicate attestation held plus 20 per cent. spare, and will at once complete and deal with these forms as laid down in paragraphs 126 and 126A, Regulations for Mobilization, as amended by this Order. Officers commanding units will make use of the Army Form B 122 at present held in the mobilization stationery boxes.

6. In the case of serving soldiers who remain at home when the unit to which they belong proceeds abroad, their documents, including Army Forms B 103 and B 122, will be handed over to the officer commanding details. This officer will hand them over to the officer commanding the reserve unit to which the men are attached as soon as they join that unit. The documents, including Army Forms B 103 and B 122, of regular and special reservists who are surplus to initial requirements of the Expeditionary Force will be sent to the officer commanding the reserve unit to which they are attached.

7.  an allowance of 8s. a day under the following conditions:—

- (i.) It will be drawn for every day a motor cyclist is present and effective at the recruit and annual training, and for every day when specially employed on any military duty as motor cyclist.
- (ii.) It will not be drawn in respect of any journey to and from the place of training or duty.
- (iii.) It will be additional to any pay and allowances to which a motor cyclist may be entitled by virtue of his rank or appointment.

13. *Travelling allowance.*—Motor cyclists, when joining for annual training or other military duty, will, if they proceed by motor cycle, receive an allowance at the rate of 1½*d.* a mile for the distance by the shortest route between their homes and the place at which they have been ordered to report, provided always that such allowance does not exceed the expenses (1st class for officers and 3rd class for other ranks) which would have been incurred had they proceeded with their motor cycles by rail.

14. (a.) *Inspection of motor cycles.*—Officers and other ranks will be required to submit their motor cycles for inspection before being permitted to join the Motor Cyclist Section of the Royal Engineers, Special Reserve, and a further annual inspection will be carried out in the spring of each year after joining and also on the purchase of a new machine. These inspections will be arranged for by the Motor Cyclist Reserve Committee of the district in which the motor cyclist resides, the inspector being required to report whether the motor cycle comes up to the required specification shown in Appendix C. No pay or allowances of any kind will be admissible from army funds in connection with these inspections.

that may be due or become due to him, until 1913
he produces his motor cycle in a serviceable *continued.*
condition.

(c.) On reporting for annual training the motor cyclist, should he fail to produce his motor cycle in a serviceable condition, may, in the absence of reasons considered valid by the General Officer Commanding-in-Chief concerned, be refused permission to train, and is then liable—

- (i.) In the case of an officer to forfeit all gratuity, pay and allowances to which he is or may become entitled for that year.
- (ii.) In the case of other ranks to forfeit any bounty that may be due or become due to him until he produces his motor cycle in a serviceable condition.

15. *Procedure on mobilization.*—Motor cyclists will report where ordered, bringing with them the overalls, gauntlets and goggles mentioned in Appendix B (2). For these articles, if in serviceable condition, motor cyclists (other than officers) will receive an allowance of 15s. ; they will also receive a complete outfit of clothing and necessaries. All motor cyclists will bring their motor cycles fully equipped with spare parts and valise, as provided for in Appendix C, paragraphs (i) and (k).

Each motor cycle will then be inspected by the officer to whom the motor cyclist is ordered to report himself, who may—

- (a.) Take the cycle over at a valuation on the basis laid down in paragraph 16 ; or,
- (b.) Replace it by a new one.

16. *Valuation of motor cycles.*—The motor cycle will be valued on the following basis :—

- (a.) In the case of officers on appointment, and in the case of other ranks on enlistment, or on the subsequent purchase of a new motor cycle, the motor cyclist will be required to state the original price of the motor cycle and the date of purchase, and to produce a receipt, or such other evidence as may be accepted by the inspecting officer.

Army Orders.—June, 1913.

- A.O. 189** (b.) On the motor cycle being taken over by the
1913 Government, a reduction of 10 per cent. of
continued. the original cost will be made for the first
 year since purchase, and a further reduction
 of 10 per cent. of the original cost for each
 subsequent half year or part thereof, but the
 price paid will not be less than 30 per cent. of
 the original cost of the motor cycle.

| A.O. 191. | Character Certificates, Employment Sheets, &c. — | 19 |
| 1913. | 1. It has been found that the existing system of assessing soldiers' characters on discharge or transfer to the reserve is not entirely satisfactory since the present form of character certificate does not always adequately record the soldiers' conduct and qualifications while in the army, or supply the information a civil employer requires regarding men he proposes to take into his employment. | <u>Gen. No.</u>
5110 |

It has, therefore, been decided to adopt a revised form of character certificate, to introduce an employment sheet, and to issue the following instructions regarding the latter for the guidance of all concerned :—

2. An employment sheet (A.F. B 2066) will be kept in duplicate for each warrant officer, non-commissioned officer and man ; one copy will be filed with his company conduct sheet and the other placed with his duplicate attestation. The heading of these sheets will be filled in on enlistment. In the case of warrant officers and non-commissioned officers of the rank of colour-serjeant and upwards, the sheets will be treated as con-

fidential documents. Once a year, between dates to be fixed by the brigade commander, the characters of all soldiers will be assessed on these forms, those of the regimental staff by the commanding officer or adjutant, those of others by the officers responsible for the custody of their company conduct sheets. The precise detail as to character recorded must depend upon the case of the individual whose character is being assessed, but nothing will be omitted which will in after years assist a commanding officer in forming a just estimate of the man's character and qualifications. In filling in column six in the case of a man whose military character does not reach the standard V.G. the assessing officer will as a general rule commence by briefly stating the cause, *e.g.*, "Insubordinate," "Deserter," "Often absent," &c. He should then make positive or negative allusion to personal characteristics, such as honesty, sobriety, industry, cleanliness, intelligence, trustworthiness, &c., for which the soldier may have proved himself remarkable during the period under review, and make special mention of any trade or occupation which is likely to be of use to the soldier in civil life on which he may have been employed since the last assessment of his character. When the assessing officer has not sufficient personal knowledge to enable him to assess the character of men who have not been employed directly under himself, he should invariably make verbal or written reference to the soldier's immediate superior or other person who is in a position to give him reliable information concerning him.

A.O. 191
1913

continued.

3. Similar assessments should be made when a soldier is transferred or posted to another unit, and when he completes a course of instruction or relinquishes an appointment or employment outside his own unit. These extra assessments may be omitted if in the opinion of the assessing officer no information which would assist a commanding officer in correctly estimating a soldier's character can be given.

4. When the assessments are complete each man should have his assessment read to him and, if he is dissatisfied, be given an opportunity of appealing to the commanding officer. The opportunity offered by these occasions should be taken to warn men who are deteriorating of the serious consequences unfavourable entries must have on their prospects after they leave the colours.

5. After each assessment the original sheet will be

A.O. 191 forwarded to the orderly room in order that a copy of

continued. 6. When a soldier who has elected to be registered for civil employment by the National Association finally quits the colours, his duplicate employment sheet will be forwarded to the officer in charge of the civil employment register of the branch he selects and the original sheet will be placed in the man's documents. If a soldier declines to be registered for civil employment this sheet will be placed in his original attestation, in order that it may be available should he subsequently apply to be registered.

7. Copies of A.F. B 2066 will be distributed to all concerned as soon as supplies are available, and will then be taken into use forthwith. In order that the employment sheet may be of service at the earliest date possible, boards consisting of a major or captain and one or two subaltern officers will be assembled in every unit for the purpose of completing to date the sheets of serving soldiers enlisted before the date of this order. These boards will complete the first five columns of the form from the information obtained from the man's documents and from the man himself, and will fill in column six on statements obtained from reliable persons cognisant of the soldier's character and attainments for the period under review. They should, as far as possible, make separate assessments to cover distinct periods in the man's career, such as periods passed in other units, or in various non-commissioned ranks, or in different responsible appointments or employment, &c. When no information bearing on any particular period is obtainable a note to that effect should be made in column six. The completed form will be signed by the members of the board immediately below the last entry and subsequent entries will in due course be made in accordance with the procedure laid down above.

Where any difficulty is experienced in forming a board the assessment may be made by the soldier's commanding officer or any officer appointed by him.

8. The new character certificate will be published shortly and will be taken into use from the date of receipt of the Army Orders in which the necessary instructions for completing it appear, by which time the employment sheet of any man due for transfer to the army reserve or for discharge will have been completed. The necessary amendments to King's Regulations will appear at the same time.

Universal Pay Day for all Arms and compilation of Pay Lists.— A.O. 192.
1913.

With a view to further simplification and in order to show a more exact balance on soldiers' accounts it has been decided to introduce a new system of accounting, with effect from 1st July, 1913, for all troops serving at home, and from the 1st October, 1913, for troops serving abroad.

The pay of soldiers will be issued and the pay and mess books and pay lists compiled in accordance with the following instructions :—

1. All soldiers' pay will be calculated up to and including the Friday in each week, and, if possible, that will be the universal pay day ; but, if more convenient, the soldiers' pay may be issued on Saturday, calculated, in all cases up to and including Friday only. The cash required must invariably be requisitioned for for Friday.

2. A weekly rate of consolidated stoppage will be substituted for the present monthly rate.

3. Pay lists, pay and mess books, and all returns affecting the soldiers' emoluments (except copies of regimental orders), instead of being rendered for a calendar month, will be compiled for the periods consisting of four or five weeks, as the case may be, comprising the weeks ending on the last Friday in each month (for July, 1913, 25 days only).

4. Every endeavour should be made to regulate cash payments in order to arrange that on the last Friday of each month the soldiers' account will be clear, but there is no objection to the soldier accumulating his pay up to the last pay day.

5. The accounts, &c., of troops serving at home will therefore be rendered for the following periods :—

- (1.) 1st July, 1913, to 25th July, 1913 (25 days).
- (2.) 26th July, 1913, to 29th August, 1913 (5 weeks).
- (3.) 30th August, 1913, to 26th September, 1913
(4 weeks).
- (4.) 27th September, 1913, to 31st October, 1913
(5 weeks).
- (5.) 1st November, 1913, to 28th November, 1913
(4 weeks).
- (6.) 29th November, 1913, to 26th December, 1913
(4 weeks).

For troops serving abroad the pay lists, &c., to the end of October will be rendered as heretofore.

7. *Rations.*—Arrangements should be made for the supply accounts (Army Forms F 743, F 736 and F 733) to be closed on the last Friday in the month, and contractors' bills will also be made up to that date. Contractors under contracts now in force should be instructed accordingly by General Officers Commanding-in-Chief. The forms of tender will be amended in due course.

8. In regard to the quarterly clothing allowance, officers commanding companies, &c., are reminded that paragraph 34 of the Clothing Regulations, Part I., provides that any balance not required for clothing and necessaries during the quarter will be included in the current cash payments to the soldier.

9. *Requisitions for cash.*—From the last Friday in the month until the last day of the month officers commanding companies, &c., are not to requisition for cash. Any cash required to meet casual payments during that period should be included in the requisition for cash to pay the company, &c., on the last Friday in the month, and shown separately on the requisition.

10. The pay and mess books will be rendered to regimental paymasters by 9 a.m. on the Tuesday following the last Friday in each month.

738

Order 81 of 1913, the following instructions are promulgated regarding the issue of pay, &c., to the non-commissioned officers and men referred to in that Order :—

The quarterly instalments of the annual bounty will ordinarily be issued by the regimental paymaster, Chatham.

The pay of the non-commissioned officers and men who collectively perform annual training in field post offices with formations of the Regular Forces or the Territorial Force will, together with any instalment of the annual bounty that may fall due during the training, be issued by the officer of the Special Reserve Postal Section in command. He will compile the training pay list and will forward it on the conclusion of the training to the regimental paymaster, Chatham, for audit.

He will indent for the cash on the cashier of the Eastern Command and will show on the indent (A.F. N 1487) that the account will be rendered to the regimental paymaster, Chatham.

The pay of any man who performs his annual training in camp with a unit of the Territorial Force will, together with any instalment of annual bounty that may fall due, be issued by the officer commanding that unit and charged in the unit's training pay list. The regimental paymaster who examines the pay list will notify particulars of the training performed and the pay (and bounty, if any) issued to the regimental paymaster, Chatham, to enable the latter officer to make any necessary record in the training pay list on which the quarterly instalments of the annual bounty are issued.

93 *** National Insurance Act, 1911.—**With reference to **A.O. 194.**
451 paragraph 3 of Special Army Order, dated 27th June, **1913.**
 1912 (Army Order 197 of 1912), and to Special Army

Order, dated 12th November, 1912 (Army Order 345 of 1912), the prescribed time within which a soldier who has completed the period of his first engagement and re-engaged for pension may elect whether he will have deductions made from his pay for the purposes of insurance under the National Insurance Act, 1911, has now been extended to the 30th June, 1913, inclusive.

* Issued as a Special Army Order, dated 7th May, 1913.

Army Orders.—June, 1913.

A.O. 194 Consequently all soldiers, whether serving at home
1913 or abroad, who have already entered on their second
continued. period of engagement or who enter on their second
 period of engagement before 30th June, 1913, may elect
 to become insured or to continue their insurance, as
 the case may be, at any time up to and including that
 date, but not after.

It should, however, be clearly understood that this
 extension of the prescribed time does not allow any
 re-engaged soldier who has already elected to become
 insured, or to continue his insurance, to revoke his elec-
 tion ; also, that contributions will be payable by and
 in respect of all re-engaged soldiers, who avail them-
 selves of this extension of the prescribed time, as from
 the 15th July, 1912, or from the first day of their
 second period of limited engagement, whichever date is
 the later.

It is essential that this extension of the prescribed
 time should be brought to the notice of all concerned at
 the earliest possible moment.

From the 1st July, 1913, inclusive, all soldiers enter-
 ing on a second period of limited engagement will
 record their election on or before the first pay day
 which occurs after the commencement of such second
 period of limited engagement.

Paragraph 3 of Special Army Order, dated 27th June,
 1912 (Army Order 197 of 1912), should be amended in
 accordance with this Order. Special Army Order,
 dated 12th November, 1912 (Army Order 345 of 1912),
 is hereby cancelled.

A.O. 195. **Addresses on official letters.**—The Postmaster-
1913. General has drawn attention to the use, in letters sent
 from military offices, of addresses so abbreviated as to
 be insufficient to indicate to Post Office servants the
 names or titles of the addressees or the premises at which
 they are to be found. In future, therefore, the address
 on the envelope of every letter sent on official business
 through the post should contain a precise indication of
 the place where delivery is desired.

If the full address is not known, the name of the
 appointment should be written in full.

Applications to attend artillery practice camps and those involving long railway journeys will be forwarded by the G.O.C.-in-C. on A.F. E 656 to the War Office for consideration. It is desirable that such applications should be submitted as early as possible and in any case they must be sent in not later than the 15th January.

Other proposals may be approved by the G.O.C.-in-C. without prior reference to the War Office, but in all cases notification will be sent to the War Office on A.F. E 656 by the 15th January. The dates and places of camps should be notified in Command Orders as soon as approved by the G.O.C.-in-C. or the War Office as the case may be.

Until the arrangements are duly approved and so notified no action is to be taken which will involve expenditure or otherwise cause difficulty in the event of the proposals put forward not receiving sanction.

ROYAL WARRANTS.

*Military, Quasi-Military and Civil Employment of Officers.

GEORGE R.I.

A.O. 217. 1913.	WHEREAS WE deem it expedient to amend the rules governing the employment of officers of Our Army in posts outside Army establishments.	22 Retired Pay 180
----------------------------------	--	-----------------------------

OUR WILL AND PLEASURE is that the future employment of officers in appointments under Colonial or Foreign Governments, under civil departments of the Home Government and in other special appointments not remunerated out of army funds, shall be governed by the following rules :—

1. The present classification of appointments as "civil" and "colonial military" (Articles 1234 and 1235 of the Pay Warrant) will be abandoned and, as regards retirement from the army and army retired pay, the treatment will depend entirely on the nature of the appointment.

2. Appointments will in future be classified as follows :—

Class A.—Military employment. The officer may count time in the appointment as service, and will vacate the appointment in the event of his retirement from the army.

Class B.—Quasi-military employment. If an appointment not strictly military is considered to be clearly of a nature to afford practical experience likely to be afterwards of advantage in military service, the officer may be allowed to take it, and his time in such employment will count as service provided that such employment does not last for a period exceeding five years and that the officer returns to the active list of the army and gives three years' subsequent service therein, or, after his return to the army, is retired for medical unfitness before completing three years' subsequent service.

* Issued as a Special Army Order, dated 18th June, 1913

Army Orders.—July, 1913.

Class C.—Civil employment. Such employment will ordinarily involve retirement from the army, but an officer may be specially allowed for a limited period to be placed upon the half-pay list without drawing half-pay or counting service, in order that he may take up employment of this kind which is temporary or held for a term on probation. If he vacates his employment during this limited period, he may be allowed to return to the army.

A.O. 217
1913
continued.

3. On retirement any retired pay or gratuity for which the officer is eligible may be drawn.

4. These rules will apply to officers of all arms without distinction.

5. These rules will not be applied to an officer now holding such an appointment during the period for which he was appointed; but if this period is extended or the officer is transferred to a differently classified post he will come under the new rules. For Colonial appointments the new rules will come into force on 1st July, 1913.

The Warrant of His late Majesty for the Pay, Appointment, Promotion and Non-effective Pay of Our Army, dated 1st December, 1909, shall be amended as follows :—

I.—The following shall be *inserted* after Article 73 :—

VI. (a). APPOINTMENTS NOT REMUNERATED OUT OF ARMY FUNDS.

73A. The conditions under which an officer shall accept and hold an appointment under a Foreign or Colonial Government, or under a civil department of the Home Government, or another appointment not remunerated out of army funds, shall depend on the class into which the appointment falls as follows :—

A.O. 217.
1913.

Class A.—Military employment. (Seconding, Article 74 (*h*).)

Class B.—Quasi-military employment, *i.e.*, those appointments which are in the opinion of Our Army Council clearly of a nature to afford practical experience likely to be afterwards of advantage in military service. (Seconding, Article 74 (*h*).)

Class C.—Civil employment. (Half-pay list, Article 271A; retirement, Article 482.)

A.O. 217. (h.) From the date of appointment (or from the date
1913. of embarkation on appointment) to a post which is not remunerated out of army funds, in Class A or B of Article 73A. (Retirement, Article 482 ; counting of service, Article 490.)

III.—The following shall be *substituted* for Article 79 :—

A.O. 217. 79. An officer (other than an officer serving in Our
1913. Royal Engineers or under the Egyptian Government, *see* Articles 86, 87 and 267) who has been absent from his regiment for five years for the purpose of holding employment in any of the cases specified in Article 74(a) (other than as equerry under Article 60) or Article 74 (h), shall, unless he retires from Our Army, be available for duty with his regiment or corps. With the approval of Our Army Council this limit may be extended for a further period in any of the cases of employment under Article 74 (a) (other than as equerry under Article 60) or in a Class A (Military) appointment under Article 74 (h) provided that the period during which an officer shall be so absent continuously from his regiment shall not exceed ten years.

IV.—The following shall be *inserted* after Article 271 :—

**Officers placed on the Half-Pay List on account
of civil employment.**

A.O. 217. 271A. An officer who is permitted to accept an
1913. appointment in Class C of Article 73A, which is of a temporary nature or held for a term on probation, may be placed upon the half-pay list, or if already on the half-pay list allowed to remain on it for such period, not exceeding in any case three years in the appointment, as our Army Council may determine.

V.—The following shall be *substituted* for Articles 275, 482 and 485 :—

A.O. 217. 275. Half-pay shall not be allowed to an officer while
1913. holding a quasi-military appointment (Class B of Article 73A) or civil appointment (Class C of Article 73A) unless it is employment of a casual character, the profits of which are uncertain in amount and in the nature of fees for piecework,

Army Orders.—July, 1913.

482. On the completion of ten years from the date of an officer (other than an officer serving in Our Royal Engineers or under the Egyptian Government) being seconded or lent to hold employment in a military appointment not remunerated out of army funds (Class A of Article 73A), he shall if he does not rejoin his regiment, corps or department, permanently retire from Our Army, and may be granted the retired pay for which he would be eligible if retiring voluntarily. A.O. 217
1913
continued.

On the completion of five years from the date of an officer (other than an officer serving in Our Royal Engineers or under the Egyptian Government) being seconded or lent to hold employment in an appointment of a quasi-military character not remunerated out of army funds (Class B of Article 73A), he shall, if he does not rejoin his regiment, corps or department, permanently retire from Our Army, and may be granted the retired pay for which he would have been eligible if he had retired voluntarily from the date of taking up the appointment.

On appointment to a civil post (Class C of Article 73A), an officer shall retire from Our Army, unless he is placed or retained, for a limited period, on the half-pay list, under the provisions of Article 271A. He may retire at any time while on the half-pay list and draw the retired pay or gratuity (if any) to which his service entitles him. At the end of the limited period he shall either vacate the appointment or retire from Our Army.

485. The retired pay of an officer who has held an appointment (except as equerry) in Our Household, or as equerry to the Queen or (otherwise than under Article 60) to the Prince of Wales, or has been seconded (or in the case of a major succeeded by an additional captain) as a member of the House of Commons, shall be subject to a deduction of 5% for each year or portion of a year during which he has held such an appointment or has been so seconded (or in the case of a major succeeded by an additional captain), provided that such retired pay is not governed by length of total service. A.O. 217.
1913.

No deduction shall be made from retired pay under this Article which would reduce it below the rate to which the officer would have been entitled if he had been permitted to retire before taking the employment therein referred to.

An equivalent deduction shall be made in the case of an officer retiring with a gratuity

(7.) An officer who has been seconded under Article 74 (*h*) to hold a military appointment (Class A) may count the time spent in the appointment as service.

An officer seconded under Article 74 (*h*) to hold an appointment which is considered by Our Army Council to be clearly of a nature to afford practical experience likely to be afterwards of advantage in military service (Class B), may count the time spent in the appointment as service, provided he has returned to the active list of Our Army and given three years subsequent service therein; or, after his return to Our Army, is retired for medical unfitness before completing three years' subsequent service.

I.—*Soldiers in hospital.*

A.O. 222. With reference to paragraphs 4 and 10 of Special
1913. Army Order, dated 27th June, 1912 (Army Order 197 (iii.) of 1912), it should be understood that, so long as a soldier is entitled to pay while in hospital, contributions are payable by and in respect of him.

The words "in hospital" in the last two lines of paragraph 10 of the Special Army Order above quoted, refer only to cases in which soldiers lose their pay under the Pay Warrant while in hospital.

No entries other than the words "no pay", with the addition of the words "in hospital," if applicable, should be made in the spaces provided for stamps on the card. Entries such as "guard room", "discharged with ignominy", "discharged in prison", should on no account be made.

II.—*Arrears.*

1. Any arrears which may arise during the services of a soldier with the colours can be paid by obtaining an arrears card and affixing stamps thereto. Arrears would ordinarily arise only in cases of imprisonment and desertion.

* Issued as a Special Army Order dated 19th June, 1913.

2. An arrears card can be obtained by a member of an approved society on application to his society, and by a member of the Navy and Army Fund on application to the Insurance Commissioners. A.O. 222
1913
continued

3. Stamps for the purpose of payment of arrears should be obtained by a soldier serving at home from the nearest post office.

A soldier serving abroad may obtain stamps for this purpose from the officer commanding his company, &c., on prepayment.

III.—*Membership of approved societies.*

It has been brought to notice that cards of soldiers have been returned to the Insurance Commission by approved societies with the statement that the soldiers had not been admitted to membership. It should be clearly understood that, in order to become members of a society, soldiers must make definite application to the society before the lapse of the prescribed period within which a soldier can join an Approved Society—see Section II., 1 (a) and (b) on page 3 of Special Army Order, dated 26th June, 1912 (Army Order 197 (ii.) of 1912), and, in the case of soldiers who were serving abroad on 15th December, 1912, paragraph 7 of War Office circular letter 93/214 of 4th December, 1912—and must be definitely accepted by the society.

The name of a society should not be written on a card, nor should the card be posted to the society, until such acceptance has been notified by the society.

IV.—*Re-engaged soldiers who elect to cease contributions.*

The following should be *substituted* for paragraph (2) of Section III. on page 5 of Special Army Order, dated 26th June, 1912:—

“(2.) If a soldier, whether a member of an approved society or not, elects to cease contributions on re-engagement, he lapses from insurance from the beginning of his second period of limited engagement.

V.—*Special Reserve and Territorial Force.*

It has been decided that as from the 1st April, 1913, the employee's contribution, as well as the employer's, under Part I. of the National Insurance Act, 1911, shall be charged against Army funds in respect of all soldiers of the Special Reserve and Territorial Force whenever pay is issuable from Army funds. This does not apply when the Special Reserve are called out on permanent

The whole contribution under Part I. of the Act will, therefore, be entered in the Pay Lists (Army Forms N 1492 and N 1451) in the column headed "Insurance Contributions payable by the War Office," and no other entry, either in the pay and mess book (Army Form N 1541) or the pay list, should be made.

Paragraph 31 of Special Army Order, dated 27th June, 1912, should be amended accordingly.

A.O. 223. **Establishments.**—1. The establishments of the war-
1913. rant and non-commissioned ranks (including paid lance appointments), drummers, pipers, buglers and artificers of the various arms of the service, as well as those of miscellaneous institutions, such as the School of Military Engineering, School of Gunnery, School of Musketry, &c., will be verified at least once a-year, in accordance with the following instructions:—

2. As soon as possible after the 1st September, 1913, and after any subsequent date that may from time to time be notified by the War Office, every paymaster in whose account the pay for that date of any warrant or non-commissioned officers (including soldiers holding paid lance appointments), drummers, pipers, buglers and artificers of the regular forces appears, other than those the establishment of which he himself is to check, will prepare a nominal roll or rolls of such warrant and non-commissioned officers, &c., and transmit them with the least possible delay, as directed in paragraph 3. The exact rank or appointment should invariably be shown on the rolls, *e.g.*, saddler quartermaster-serjeant or wheeler staff-serjeant and not merely quartermaster serjeant or staff-serjeant, as the case may be.

The names of men on the strength but not on pay in the accounts on the specified date should not be included in the rolls.

3. The rolls containing the names of the warrant or non-commissioned officers, &c., of the household cavalry and foot guards will be transmitted to the Command Paymaster, London District. The rolls for the cavalry, whether serving at home or abroad, will be sent to the regimental paymaster who prepares the account of the unit to which the men belong. In the case of infantry of the line, when the units are serving at home, the

rolls will be sent to the regimental paymaster at the record office station; when serving abroad, to the regimental paymaster who prepares the account of the unit. Similarly those for the colonial corps and local companies abroad will be forwarded to the paymaster charged with the preparation of the pay list. The rolls for the following corps will be forwarded as shown :—

R.H.A. and R.F.A.,	to the regimental paymaster,	Woolwich.
R.G.A. and R.A. clerks,	to the regimental paymaster,	Dover.
R.E.,	to the regimental paymaster,	Chatham.

A.S.C.,	to the regimental paymaster,	Woolwich.
R.A.M.C.	"	Aldershot.
A.V.C.	"	Woolwich.
A.O.C.	"	Woolwich.

The regimental paymasters specified in this paragraph will check the actual strength of the units with Peace Establishments, Part I., and in the event of there being any excess in numbers over the authorized establishment, will obtain an explanation of the same, if at home from the officer i/c records, if abroad from the O.C. the unit concerned, together with a statement showing what steps are being taken to absorb it.

The establishments of the miscellaneous institutions referred to in paragraph 1 will be checked locally.

The nominal rolls for the garrison and district staff, schoolmasters, army pay corps, military provost staff corps, military police and army gymnastic staff will be sent to the War Office.

4. In the infantry, the establishment of the home battalion and the regular establishment of the reserve battalions, exclusive of lance appointments, will be taken together and treated as a whole, whilst the establishment of the battalions abroad will be checked independently. *See* paragraphs 292 and 293, King's Regulations.

5. The establishments of the Special Reserve and the Territorial Force, including the permanent staff of the latter force, will be checked by the paymaster to whom the pay list is rendered. In the event of there being any excess in numbers over the authorized establishment an explanation will be obtained, in the case of the Special Reserve from the officer i/c records, and in the case of the Territorial Force from the O.C. the unit.

Under active service conditions, horses will be entrained saddled or harnessed, unless orders to the contrary are issued. 38. Entraining and detrainning horses.

116
Gen. No. 1. Horses will be entrained saddled or harnessed,
5587 unless orders to the contrary are issued. The authority
 competent to issue such orders will be the Army
 Council as regards movements in the United Kingdom,
 and elsewhere the Commander-in-Chief in the field or
 an Army Commander.

2. At the entraining station, after stirrups have been
 crossed, bits removed, girths slackened, and traces
 secured, the horses will be led on to the platform in
 single file, the first horse to enter a truck being the
 quietest available.

3. One method of entraining is to pass the horses
 alternately to right and left in the truck and secure
 them with their heads facing the loading platform,
 except the last two which face the opposite way.
 Another method is to entrain them heads and tails
 alternately.

The closer horses are packed, the quieter they
 travel. If there are not sufficient horses to fill a truck
 they should be closed up to one end and a sliding bar
 used to secure them.

4. Horses' heads should be fastened by head ropes to
 the truck, whether the horses are harnessed or not,
 sufficient freedom being allowed to enable the animals
 to adapt themselves to the oscillations of the train. It
 is immaterial whether the horses' heads face the second
 line of rail or not.

If watering and feeding are to be carried out on the
 journey it is preferable that the horses face the plat-
 form, if this can be arranged, when entraining. To
 prevent delay at places where they are to be fed, nose-
 bags should be filled *en route*. Hay or straw should
 be loaded up separately for fear of fire.

5. After detrainning, riding horses will be led at once
 to the place of assembly, draught horses being taken to
 their guns or wagons which are then removed to the
 place of assembly.

A.O. 329. House of Commons (Disqualification) Act, 1782, Contracts
1913. and its Relation to Contracts.—1. The following memo- 933
 randum has been issued by the Attorney-General :—

(1.) The Report from from the Judicial Committee of the Privy Council in the matter of Sir Stuart Samuel, M.P., having made it clear that the House of Commons (Disqualification) Act, 1782 (22 Geo. III. c. 45), is of wider application than has sometimes been thought, it is desirable that attention should be called to the provisions of that Statute, and particularly to the duty imposed by Section 10 thereof upon all officials to call the attention of contractors to the Act.

(2.) The Statute applies to every contract in which the two following elements are present :—

(a.) That the contract is for or on account of the Public Service ; and

(b.) That it is made with an officer of the British Government within the description to be found in Section 1 of the Act.

As to (a) : It is now settled law that a contract is “for or on account of the Public Service” if it is made for any service of the Crown anywhere. No matter

where the contract is made or where it is to be executed or what may be the source of the money to be paid under it. A.O. 329
1913
continued.

As to (b) : If a contract for any service of the Crown is made with any of the officials named in Section 1 of the Act, or with any official by whom the functions of the named officials are now discharged, or with any official who, though not named in the Act, holds an office in the British Government of a similar kind to those enumerated, the contract is within the Act. Moreover, in deciding whether any given official falls within the above description or not a wide interpretation is to be placed upon the description.

(3.) It should particularly be borne in mind that a duty is cast, by Section 10 of the Act, upon all officials making contracts which come within the meaning of the Act, to call the attention of the contractor to the Act by making it an express condition of the contract that no member of the House of Commons shall be admitted to any share or part of such contract or to any benefit to arise therefrom.

This express condition should always be inserted in any contract coming within the meaning of the Act.

2. The following clause should accordingly be included in all contracts for or on account of Army service :—

In pursuance of the House of Commons (Disqualification) Act, 1782 (22 Geo. III., cap. 45), and under pain of the penalties therein mentioned, no Member of the House of Commons shall be admitted to any part or share in this contract, or to any benefit to arise therefrom, contrary to the true intent and meaning of the said Act.

In the case of a man serving at home it will be delivered to him complete and free from erasure on the day he finally quits the colours when proceeding on furlough to seek employment, or, if such furlough is not granted, on transfer to the army reserve or on discharge, as the case may be. When a man is serving abroad, it will be forwarded with his other documents to the officer at home who is responsible for carrying out the actual transfer or discharge, for completion of the fourth page and delivery to the man on the day he quits the colours. In the event of anything having occurred in the meantime to warrant alteration, the latter officer is authorized to substitute a fresh certificate made out by himself for that signed by the man's C.O."

14. *For* paragraph 418 *substitute—*

A.O. 340. 418. Before assessing a soldier's character on A.F.
1913. B 2067, a C.O. will make a careful study of his conduct sheet, his employment sheet, and his medical history sheet. He will then write a character on A.F. B 2067 in the form of a testimonial based on the above data, his own personal knowledge, and the opinion of the soldier's company officer, special attention being paid to the last 3 years of service. The character should, whenever anything can truthfully be said in the man's favour, refer specifically to the following points; honesty, sobriety, trustworthiness and any further qualities, e.g.,

tact, discretion, power of command, subordination, industry, cleanliness, intelligence, thrift, punctuality, total abstinence from alcoholic liquor or tobacco, that are likely to appeal to an employer. It should proceed to detail any capacities in which the man has been employed during his colour service reference to which is likely to assist an employer in estimating his suitability for a particular form of employment. In the case of warrant officers or N.C.Os the period of service in each rank may often usefully be stated. While nothing need be said in a soldier's disfavour, no statement should be made that a C.O. would not be prepared to uphold if he was recommending the man to a personal friend. It should always be borne in mind that no greater injustice could be done to men of really good character and attainments than, for the sake of an individual, running the risk of discrediting army characters in the eyes of the civil employer of labour. After signing the character form a C.O. will, if the man is eligible and not already registered, enquire whether he desires to be registered for employment in any branch of the National Association for the employment of ex-soldiers, and will explain the advantages of taking this course. If the man expresses such a desire the C.O. will carry out the instructions laid down in the Civil Employment Regulations, entering in the space provided on A.F. B 2067 the name and address of the branch selected. He will then check the accuracy of the entries on the first and fourth pages of the certificate, which should be completed as far as possible, and require the man to sign his name in the allotted space.

A copy of the character awarded will be entered in A.F. B 268 or B 2056, whichever is applicable, and initialed by the officer concerned.*

Men should be warned that if they lose their character certificates no duplicates will in any circumstances be issued, although the branch of the National Association at which they are registered may always be referred to by any prospective employer who applies within 3 years of the date on which the character was awarded, after which the reference must be made to the Officer i/c Records. Men should be advised on no account to part with the original certificate, or forward it by post when applying for a situation, but should use a copy attested by a responsible person for the purpose.

* A space will be allotted for this purpose in future reprints of these forms.

1913.

A soldier will be required to pass a test at the Central Flying School before classification as a first or second class flyer. The classification then obtained will have effect for a period of 6 calendar months from the date thereof, and in order to retain his classification a soldier will be required to requalify prior to the expiration of that period and periodically every 6 calendar months, reckoning from the date he became qualified. If found efficient at these half-yearly tests, he will be reclassified as a first or second class flyer in accordance with the standard of proficiency attained by him.

A soldier who qualifies as second class flyer at the Central Flying School will not be classified as a first class flyer until he has undergone a further examination at the school, and has been graded as a first class flyer; but a soldier who has once been graded as a first class flyer at the Central Flying School and who subsequently fails to requalify as such at a half-yearly test may, without going again to the Central Flying School for the test, be reclassified as a first class flyer provided he passes the prescribed test.

The conditions of the tests at the Central Flying School and of the half-yearly requalifications, are given in Army Orders.

The date of receipt of flying pay due to classification will be reckoned from the date of classification, and the date of subsequent change or withdrawal of flying pay due to classification will be reckoned from the end of the 6 calendar months in which the requalifying test is carried out.

If the test is not carried out within the 6 months, the flying pay will cease at the end of that period and will recommence only from the date on which the soldier requalifies by passing the prescribed test, in which case the period of 6 months will reckon from the new date of classification.

A.O. 340.
1913.

1915. Service abroad is reckoned from date of embarkation in this country to date of disembarkation on return, both dates inclusive, and includes any periods of furlough between those dates.

Indian service (which includes that of a soldier employed on an Indian transport) is reckoned from date of embarkation for that country to date of disembarkation on return, both dates inclusive, except that when the voyage to or from India is carried out at Imperial expense (which is notified in Army Orders) the voyage period (which will always include the dates of embarkation and disembarkation) is reckoned as British. The service of an invalid or other soldier left in India by a unit moving out of that country at Imperial expense is reckoned as British from and including the date of embarkation of the unit. The service of other invalids, if admitted to hospital on arrival home from India, is reckoned as Indian up to and including date of discharge from hospital, an explanatory note being added to the military history sheet giving the dates of disembarkation, admission to and discharge from hospital.

The service of a soldier transferred to the British establishment while on furlough or undergoing a course of instruction, and whose unit remains in India, is reckoned as Indian only up to and including the date preceding date of transfer.

Periods of furlough from abroad, whether special or ordinary, and periods of attendance of soldiers from abroad at classes of instruction will not be shown in the body of the military history sheet, but by means of red ink notes at the side.

In recording the service of a European soldier on the West Coast of Africa, the periods occupied by the voyage to or from the coast will be shown separately from the time actually served at any of the West African stations.

Special Reserve Regulations — Amendments. —A.O. 342.1. For paragraphs 50 and 51 *substitute—*1913.

50. A confidential report will be furnished annually to the G.O.C.-in-C. on every officer of the Special Reserve of Officers, except officers of the R.A.M.C. and A.V.C. In the case of the A.S.C. the report will be forwarded to the War Office on 1st January; in other arms it will be retained in the command, but a report on a C.O. may be forwarded to the War Office if the G.O.C.-in-C. considers this desirable.

A.O. 342.
1913.

It will be strictly confidential as between the officers reporting and the officer reported on. It will be considered privileged and will in no case be made public.

51. (i) The report will be made out in the first instance by the C.O. or other immediate superior of the officer reported on and will be forwarded by him for the remarks of the senior authorities. As soon as all the opinions of the superior officers have been entered, the report will be returned to the unit for communication by the C.O. to the officer concerned who will initial the report at the place assigned for the purpose to show that he has seen it.

If the officer reported on is not present with his unit a copy of the remarks will be sent to him and a certificate to that effect will be entered on the report by the C.O. The copy will be returned by the officer after perusal and will then be destroyed.

After communication the reports will be forwarded with as little delay as possible to the G.O.C.-in-C.

(ii) In the event of a superior officer reporting favourably on an officer who has been adversely reported on by his C.O. or other immediate superior, the conflicting reports will be enquired into by the G.O.C.-in-C. who will record his opinion and cause it to be communicated to the officers concerned.

A note will be made in the report that these instructions have been duly attended to, or an explanation furnished when they have not been carried out.

Army Orders.—October, 1913.

A.O. 342 (iii) If the result of the report is considered by the
1913 G.O.C.-in-C. as likely to prejudice the officer's further
continued. promotion the officer will be so informed.

Similar procedure will be followed in the case of adverse reports other than those made in the annual reports.

(iv) A staff or a seconded officer should be reported on only by his staff superiors and in such cases the appointment held should be shown in red ink on the report ; but a regimental commander is to bring to notice at any time any circumstances affecting such staff or seconded officer which, in his opinion, should be laid before the G.O.C.-in-C. On the other hand the G.O.C.-in-C., on the return of a staff or a seconded officer to his unit, will inform his regimental commander of any circumstances which have occurred during the period of staff or seconded service which he considers should be known to his regimental commander.

(v) A slip should be annexed to each report giving the name and address of next-of-kin (stating relationship), guardian or agents for reference in case of emergency ; also a second name (as an alternative).

A field officer will not be appointed unless no other officer is available, and in no circumstances will a quartermaster be appointed.

- (a.) Proper guarantees are obtained that any damage caused will be made good by the users.
- (b.) The rent charged for the use of the property is fixed at an amount which is at least sufficient to cover the expenses incidental to the letting, due regard being had to the fact that, if Association property is so let or sub-let, it becomes liable to assessment for local rates on the value of the use for other than military purposes.

772A. County Associations will retain a share of the profits obtained by letting or sub-letting property for non-military use. Except in the case of the property referred to in para. 772B, the share will be 50 per cent. The profits will be ascertained by deducting from the gross receipts for letting or sub-letting all expenditure (other than the cost of advertising and any commission paid to agents in connection with the letting or sub-letting) which would not have been incurred had the use of the property been confined to military purposes, such as rates payable in respect of non-military use, the cost of extra lighting, heating, and cleaning incurred thereby, and similar charges.

The cost of advertising and commission paid to agents will be defrayed from the 50 per cent. retained by the Association.

The net profit accruing to the Association will be credited to its public funds and will be applied, under the conditions of para. 808, for the benefit of the unit or units in occupation of the property so let or sub-let. The other 50 per cent. will be taken in aid of the grants under para. 763.

772B. Grazing rights on ranges, farms, lands, and any portions of Territorial Force property not required for military purposes, such as shops in connection with drill halls, &c., should be let or sub-let by Associations to the best advantage. The profits accruing from letting or sub-letting this class of property will be dealt with as laid down in para. 772A, except that the fees of any land agent whom it may be necessary to employ, with the sanction of the Army Council, will be deducted from the gross receipts, and that only 15 per cent. of the profits will be retained by the Association.

Army Orders.—November, 1913.

A.O. 380 The sums retained by an Association under this

The 1 per cent. grant under para. 769 for repairs and upkeep will not be drawn in respect of this property, but the cost to the Association of repairs and upkeep will be deducted from the rent in calculating the profits.
